CARE AND MAINTENANCE

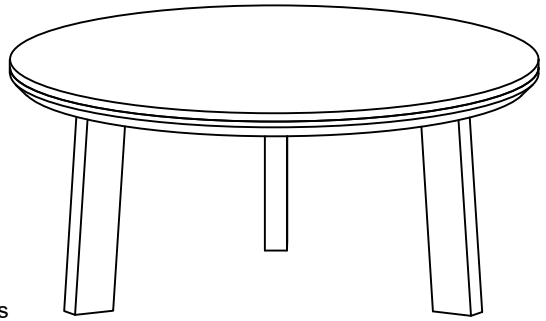

Blot up spills immediately, always use masters on table tops under beverages. Use trivets or mats under hot dishes or cookware. Clean with warm water and dry surface immediately after cleaning. Do not use cleaners that contain acid such as bathroom cleaners, grout cleaner, and tite cleaners.
Do not use abrasive cleaners in either dry or liquid forms.
Use a cleaner and polish formulated for marble surfaces.

Adhesive felt pads should always be applied to areas of furniture which make direct contact with flooring,said application will prevent damage to the furniture and or surfaces on which the furniture lies. Objects placed on articles of furniture should rest on non abrasive material as to prevent damage to the wood finish.Objects whose composition consists of plastic and rubber are known to discolor and damage the wood surfaces on which they rest. Wipe up spills immediately and avoid common hazards such as hot dishes, harsh solvents and abrasives. Cleaning should be done with a soft lint free cotton cloth dampened with water or furniture polish. On highly used surfaces we recommend applying a quality paste wax which should be used on a regular basis to provide additional protection from scratches and spills. How often you apply the wax depends on how much wear the furniture receives.
