

CARE AND MAINTENANCE

Some household cleaners and other acid substances such as fruit juice can etch or damage the lacquer surface.
please avoid dragging articles across the surface as this may scratch the lacquer.
Do use coasters under glasses and table mats under crockery.
Use mats to protect the table from very hot or very cold items.
With care minor scratches can be polished out of gloss lacquered surfaces. Use fine water based cutting polish as used for car care. Always try a little in an inconspicuous area first.

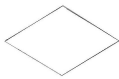

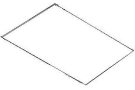

NOTICE

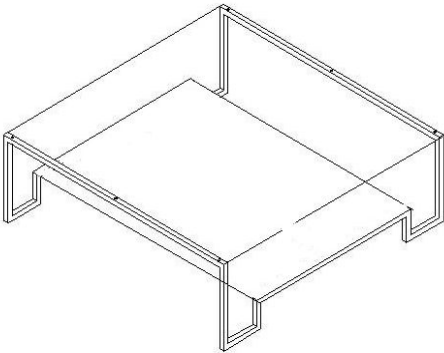

The table are heavy. If you move be sure to engage a professional company who are used to handling marble. Marble tops should always be carried and transported on their long edge. Store tops resting on their long edge and ensure that they are fully supported throughout their length.
